

Product Features

- configuration:
- frost-proof outdoor valve
- socket combination 1 x 230 V, 1 x 400 V / 16 A
- wetted metal parts made of dezincification-free and corrosion-resistant gunmetal (in closed position), resistant against aggressive water
- lockable, made of SST 1.4539 for chloric environments (e.g. swim bath), grinded surface
- as supply unit to the central power and water supply
- frame with door with profile cylinder lock as a key lock including bit keys
- retroffitable and interchangeable on an existing locking system
- can be converted on site to CH-KABA lock design
- door with integrated flap version for hose or cable connection for security even during operation
- maintenance-free EPDM spindle seal
- cone with internal CV spring
- can be extended to any length at construction site
- integrated CV and tube aerator as a security combination HD
- · male pipe thread
- actuating grip with blue identification plate
- free from dead spots
- incl. hose coupling for common connection systems
- lock with uniform key number on request, other configurations on request

Standards and Approvals

- · valve with DVGW approval
- Valve with ÖVGW approval
- valve with SVGW approval
- Valve with KIWA approval
- Valve with BELGAQUA approval
- plastic parts with KTW and W 270 approval
- according to accepted materials list from German environmental agency
- DIN EN 15096 family H, type B / EN 1717 / DIN EN 13959

Technical data

- pressure rating PN 16
- protection class IP44

Part no.	DN	A1	1 42						H5 (mm)			T1 (mm)		flow at 0.05 Mpa (l/s)
