

Product Features

- wetted metal parts made from dezincification-free and corrosion-resistant gunmetal, resistant against aggressive water
- easily replaceable double mesh made of stainless steel
- for any installation position
- for connection of the FK-5 break tank Figure 369
- consisting of: Diaphragm expansion vessel 33 liters, angle seat strainer Figure 602 00 Rp 1
- suitable for break tank station FK-5 PRO, Production from 2025

Standards and Approvals

- plastic parts with KTW and W 270 approval

Technical data

- pressure rating PN 16
- max. operating temperature 50 °C
